

HOW TO START A "SUPERBUG CLUB"

CHANGE
MAKERS

STEP 1

Research and Planning

- **Understand Superbugs:** Gain a solid understanding of antimicrobial resistance, its causes, effects, and current issues.
- **Identify Goals:** Define the club's mission, objectives, and target audience.
- **Gather Resources:** Collect educational materials, articles, videos, and resources about superbugs.

STEP 2

Get Approval and Support

- **School/University Approval:** Meet with school or university administrators to get approval for the club.
- **Faculty Advisor:** Find a faculty member who can act as an advisor and provide guidance.
- **Student Interest:** Gauge interest among students through surveys or informal conversations.

STEP 3

Establish the Club

- **Create a Plan:** Develop a detailed plan including club structure, meeting frequency, and activities.
- **Register the Club:** Complete any necessary paperwork to officially register the club with your school or university.
- **Set a Budget:** Determine if you need a budget for activities and how to obtain funding.

STEP 4

Recruit Members

- **Promote the Club:** Use posters, flyers, social media, and school announcements to promote the club.
- **Interest Meeting:** Host an initial interest meeting to explain the club's mission and activities.
- **Sign-Up Sheet:** Collect contact information of interested students.

STEP 5

Plan Activities and Meetings

- **Regular Meetings:** Schedule regular meetings (weekly or bi-weekly) and set an agenda for each meeting.
- **Guest Speakers:** Invite experts in the field of microbiology, pharmacology, or public health to speak.
- **Workshops and Seminars:** Organize workshops and seminars on topics related to AMR.

STEP 6

Educational Outreach

- **Awareness Campaigns:** Plan campaigns to raise awareness about superbugs within the school or community.
- **Educational Materials:** Create and distribute pamphlets, posters, and infographics about superbugs.
- **Social Media:** Use social media to share information and updates about superbugs and club activities.

STEP 7

Collaborate and Network

- **Partner with Organizations:** Collaborate with local health organizations, hospitals, and other relevant groups.
- **Attend Conferences:** Participate in local, national, or international conferences related to AMR.
- **Network with Other Clubs:** Connect with similar clubs or groups at other schools or universities.

STEP 8

Monitor and Evaluate

- **Feedback:** Regularly seek feedback from members to improve club activities and meetings.
- **Track Progress:** Keep track of the club's activities and accomplishments.
- **Adjust Plans:** Adjust the club's strategies and goals based on feedback and outcomes.

STEP 9

Sustain and Grow

- **Leadership Transition:** Develop a plan for leadership transition to ensure the club's sustainability.
- **Continuous Learning:** Stay updated on new research and developments in the field of AMR.
- **Expand Membership:** Continuously recruit new members to keep the club dynamic and active.
